

installation guide

LiveCode 9.6.7
(Mac)

LiveCode Installation

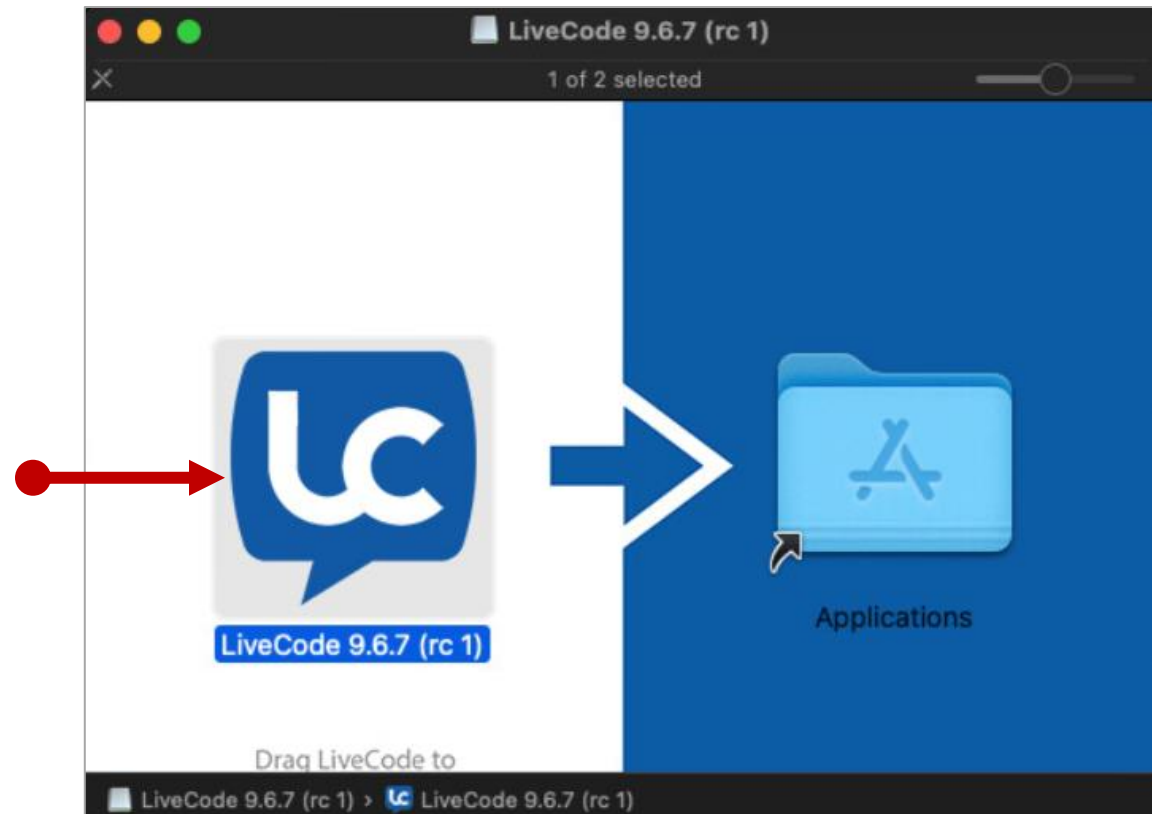

- Enter the link: [LiveCode download](#)
- Make sure!!! - Scroll down to **LiveCode 9.6.7**
- Choose the link according to your operation system type

A screenshot of the LiveCode 9.6.7 download page. A red arrow points to the 'LiveCode 9.6.7' heading. Below it, there is a table with columns for 'LiveCode', 'Release Notes', and 'Release Date'. The 'LiveCode' column contains a red-bordered box with the text 'STABLE Win 32 | Win 64 | Mac | Linux 32 | Linux 64'. The 'Release Notes' column has two links, and the 'Release Date' column shows '1 April 2022'.

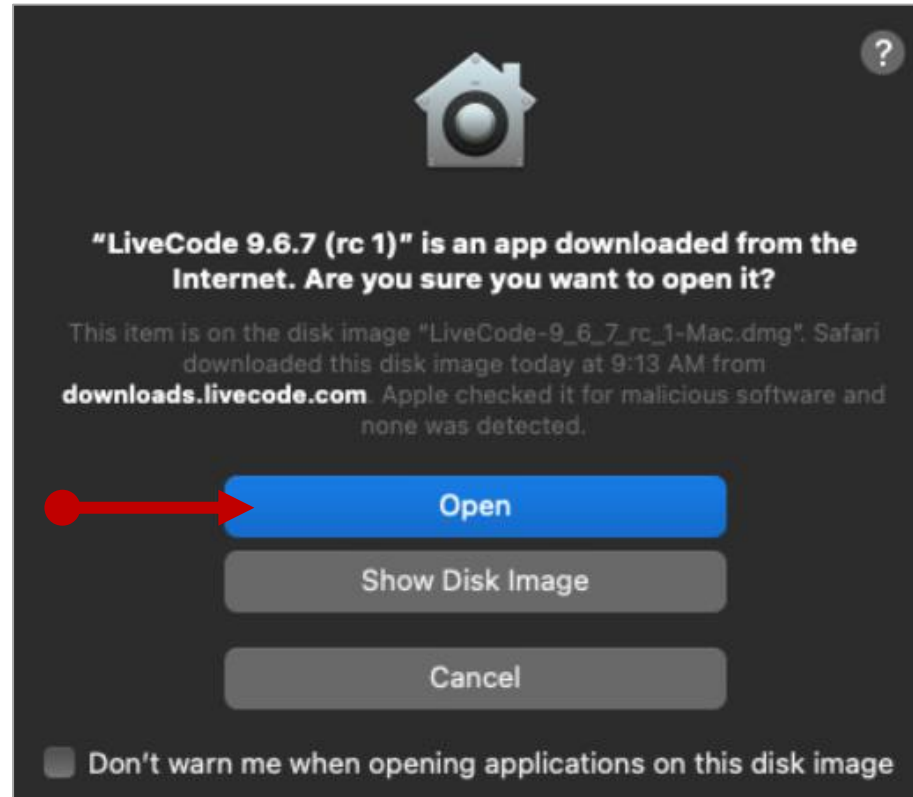

LiveCode	Release Notes	Release Date
STABLE Win 32 Win 64 Mac Linux 32 Linux 64	Release Notes Release Notes	1 April 2022
